"Mysterious and changeable, like the moon"

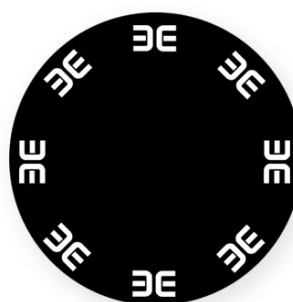

Complements

Eclissi

Designers: Omar Mohamed

Eclissi is the moon that hides and then returns to light up the night. It is the mystery and charm of twilight. It is the story of sophisticated and elegant environments, like the people who inhabit its spaces and live its places. A changeable wall lamp with replaceable external discs, customizable in the finish and emblem. A piece of furniture that can change with you, but only if you wish.
