ITALIA

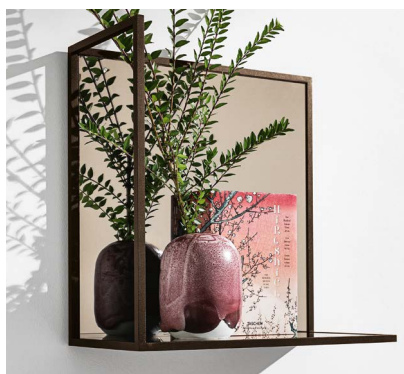

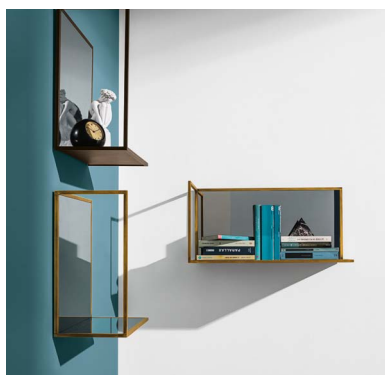

Helia

Design by Gianluigi Landoni

La struttura ricercata e minimale di Helia è impreziosita dalle mensole in specchio bronzo o fumé per donare un fascino esclusivo agli interni. Le due dimensioni e le diverse profondità permettono vari utilizzi e accostamenti.

The refined and minimal structure of Helia is enhanced by the shelves in bronzed or smoked mirror to give an exclusive charm to the interiors. The two sizes and the different widths allow different uses and combinations.

Gallery

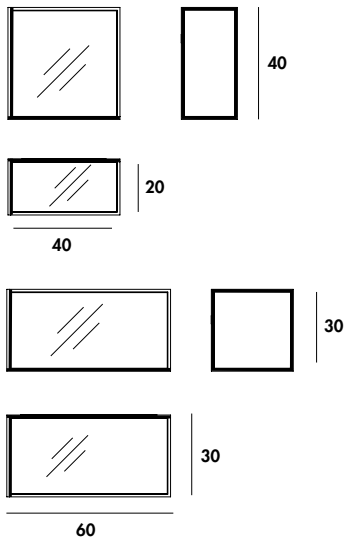

**Teca con struttura in metallo laccato nelle finiture brunito, caffè o nero.
Ripiano e schiena in specchio fumé o bronzo.**

Display case/shelf with structure in lacquered metal, mocha, black or
